

## Model GN1410TN 2 Doors - Integral Condenser

**Refrigerated -2°C ~ +8°C**

### Features:

- Constructed in AISI304 stainless steel interior & exterior with rounded internal corners for easy cleaning
- Ventilated refrigeration compartment for better air circulation
- Insulation of 60 mm thickness for better energy efficiency
- Automatic defrost and automatic evaporation of condensation water
- Evaporator treated against corrosion
- Electronic thermostat with digital LED temperature display for accurate control and easy reading
- Fridge Ambient 43°C & 60% HR
- Refrigeration type: R134a
- Heated door frame to eliminate condensation
- Magnet door seal can be replaced without any tools
- CFC free refrigerant and insulation
- 3 adjustable shelves GN2/1 per door as standard
- Lockable door with key
- Self-closing doors
- Internal light
- Equipped with lockable castors
