

Fresh Pasta Machine

Model MPF4

Fresh Pasta Machine MPF4

The Fimar Pasta Machine does everything by itself. You place the ingredients inside the stainless steel hopper and after a few minutes you will have ready the desired pasta in different shapes and sizes.

The machine guarantees the best hygiene conditions as the parts which are in contact with the dough can be easily removed for cleaning. Equipped with electric pasta cutter, micro-switch on the hopper lid and standard expulsion area cooling.

Discs are not included.

Accessories:
